OPIC CIPO

Trade-marks Journal

Vol. 62 No. 3187

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

GOODS

(1) Helmet-mounted displays for use with aircraft; optical instruments, namely, night vision goggles and fixed night vision display screens for use on-board aircraft; night vision goggles; radar detectors; radar transmitters; radar jamming apparatus, namely, computer software and hardware for operating and releasing radar jamming projectiles; computer software, computer hardware and sensors, namely, radar sensors, motion sensors, proximity sensors and thermal sensors for air traffic collision avoidance and ground proximity detection purposes; aircraft simulators for training personnel in the flying and navigating of aircraft; computer software, computer hardware and sensors, namely, radar sensors, motion sensors, proximity sensors and thermal sensors to seek, locate, survey, and track targets; infrared devices for aiming and guiding weapons; parts and fittings for all of the aforesaid goods and none of the aforesaid goods being for use with helicopters; combat aircraft; parts and fittings for combat aircraft and not including helicopters or parts and fittings for helicopters.

(2) Computer software, computer hardware, flight controls, namely, flight control panels, flight instruments and electronic displays for operating, controlling, guiding, monitoring, locating, navigating and testing aircraft and weapons for aircraft; aircraft cockpit control panels, aircraft cockpit control modules; throttles and control sticks for aircraft; data display systems and apparatus , namely, head up displays (HUD) for aircraft; computer software, computer hardware and sensors, namely, radar sensors, voice recognition sensors, motion sensors, proximity sensors and thermal sensors for aircraft for communications, radar, combat and navigation purposes; radio transmitters and receivers for use with aircraft; computer software and computer hardware for ground-based flight training exercises; computer software, computer hardware and sensors, namely, radar sensors, motion sensors, proximity sensors and thermal sensors for in-flight training exercises, in-flight simulation of air-to-air and air-to-ground combat, and in-flight simulation of emergency situations; computer software, computer hardware and sensors, namely, radar sensors, voice recognition sensors, motion sensors, proximity sensors and thermal sensors for aircraft communications systems training, aircraft weapons training, military missions training, military missions planning and in-flight and post-flight analysis; aircraft simulators for training personnel in the operation of communications, radar, navigation and weapons systems for aircraft; apparatus and instruments, namely compact disc recorders, data logers, digital camcorders, digital video recorders, tape recorders, tape players, video recorders, video players, video cameras, cameras, compact disc recorders, radio transmitters and receivers, electrical cables, fibre optic cables, loudspeakers, display screens and monitors for capturing, recording, processing, communicating,

reproducing and transmitting data, sound and images, all for use in relation to aircraft and in the provision of aircraft-related training; flight data recorders; audio data storage devices for aircraft, visual data retrieval devices for aircraft, flight data transmission devices for aircraft and prerecorded digital media for aircraft, namely, aircraft manuals; computer software, computer hardware for use in flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems, avionics systems, armament systems, removal role equipment and ground handling equipment, all being for aircraft; power management systems for aircraft, namely, networks of components, namely, wires, cables, circuit boards, connectors, transformers and electrical control panels which monitor and regulate the generation, supply, transmission, distribution and use of power and fuel; ground-based computer software and computer hardware for pre-flight preparation of data required during in-flight and post-flight analysis of operational and maintenance data collected during flight; support and test equipment, namely, equipment required for the operation and maintenance of aircraft, namely, diagnostic equipment to test, analyse, diagnose, and assist in the repair of, faults on aircraft; covers for aircraft diagnostic equipment; protective helmets, protective eyewear, protective clothing and protective footwear, namely, personal protective equipment for the protection of individuals from weather, fire, fuels, heavy objects and sharp objects, namely, protective coveralls, protective suits, protective gloves and protective boots for air crew and ground crew; parts and fittings for all of the aforesaid goods; publications and training materials, namely, training videos, training manuals, instruction manuals, user guides, technical manuals and maps in electronic or downloadable form, all relating to or being for aircraft and the provision of aircraft-related training and none of the aforesaid goods being for use with helicopters; aircraft; prototype aircraft; training aircraft; fast jet training aircraft; military aircraft; aircraft for aerial and acrobatic display purposes; mechanical parts for use in airframes, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems, avionics systems, armament systems, removal role equipment and ground handling equipment, all being for aircraft; support and test equipment, namely, equipment required for the operation and maintenance of aircraft, namely, diagnostic equipment to test, analyse, diagnose, and assist in the repair of, faults on aircraft; covers for aircraft, covers for aircraft engines, covers for aircraft tyres, covers for aircraft cockpits, covers for aircraft cockpit controls, covers for aircraft seats; parts and fittings for all of the aforesaid goods and not including helicopters or parts and fittings for helicopters.

SERVICES

(1) Construction, testing, servicing, maintenance, repair, re-fitting, refurbishment, renovation and upgrading of aircraft and of parts, fittings for aircraft (excluding computer software); design, development, installation, integration, testing, maintenance, repair and upgrading of computer hardware, electronic displays, sensors, avionics, namely, flight controls, flight control panels, flight instruments, and screens for displaying data and images on board aircraft, flight instruments, flight controls, weapons, cockpit control panels, cockpit control modules, head-up displays, helmet-mounted displays, night vision instruments, throttles and control sticks, all being for aircraft and not including any of the aforesaid services being for helicopters; provision of training, education , workshops, seminars and courses in relation to the use, operation, deployment and maintenance of aircraft, and of airborne systems and ground-based systems for aircraft; provision of training, education, workshops, seminars and courses in relation to the use and operation of computer software, computer hardware, sensors, avionics, electronics, communications equipment,

navigation systems, radar systems, information systems, life support systems, weapons systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems, removal role equipment and ground handling equipment, all being for aircraft; provision of computer-based training in relation to aircraft; provision of in-flight and ground-based training for pilots, navigators, air crew and ground crew; provision of mission planning training, namely, educational and training services, namely, conducting classes, seminars, lectures, workshops and courses for pilots, air crew, ground crew and military strategists in the field of mission planning; provision of training for instructors, namely, educational and training services, namely, conducting classes, seminars, lectures, workshops and courses for professional development of instructors in the fields of aircraft, aviation, navigation, warfare and mission planning; provision of training for flight instructors; publication of training materials, training manuals, instruction manuals, user guides, technical manuals and maps, all relating to or being for aircraft; publication of training materials, training manuals, instruction manuals, user guides and technical manuals for avionics, electronics, communications equipment, navigation systems, radar systems, information systems, life support systems and weapons systems, all being for aircraft; publication of training materials, training manuals, instruction manuals, user guides, technical manuals and maps, all relating to or being for the purposes of providing aircraft-related training; production of printed and electronic training materials, namely, audio and video recordings, all relating to aircraft, avionics, electronics, communications equipment, navigation systems, radar systems, information systems, weapons systems, life support systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems and removal role equipment systems for aircraft and not including any of the aforesaid services being for helicopters; design and development of aircraft, prototype aircraft, training aircraft, fast jet training aircraft, military aircraft, combat aircraft and aircraft for aerial and acrobatic display purposes; design and development of components, parts and fittings for aircraft, prototype aircraft, training aircraft, fast jet training aircraft, military aircraft, combat aircraft and aircraft for aerial and acrobatic display purposes; design, development and testing of computer software, computer hardware, electronic displays, sensors, avionics, flight instruments, flight controls, electronics, electronic systems, weapons and weapons systems, cock-pit control panels, cock-pit control modules, head-up displays, helmet-mounted displays, night vision instruments, throttles, control sticks, radar systems, navigation systems, life support systems, communications systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems and removal role equipment, all being for aircraft; design and development of apparatus and instruments for capturing, recording, processing, communicating, reproducing and transmitting data, sound and images, for use in relation to aircraft and the operation of aircraft; design and development of flight data recorders, data storage devices, data retrieval devices, data transmission devices and pre-recorded digital media for aircraft; aircraft testing and aircraft certification services; design, development and testing of aircraft ground support and test equipment; design, development and operation of support systems for aircraft, namely, systems for monitoring and advising on aircraft availability, for conducting logistic support analysis, and for generating maintenance policies and definition documentation; generation of reports and not including any of the aforesaid services being for helicopters.

(2) Design, development, installation, integration, testing, maintenance, repair and upgrading of aircraft simulators (excluding computer software) and of computer hardware for aircraft simulators; contracting for availability services, namely providing maintenance, servicing and preparatory services for aircraft so that the aircraft are always available, fit and ready for use and not including any of the aforesaid services being for helicopters; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of aircraft simulators, and of computer software for aircraft simulators; preparation of maps in digital form and not including any of the aforesaid services being for helicopters; provision of simulator training in relation to aircraft; organising, arranging and conducting of conferences and exhibitions relating to aircraft and aircraft-related training; production of aircraft mission simulations and not including any of the aforesaid services being for helicopters.

(3) Aircraft and aviation engineering services relating to aircraft; information, advice and consultancy relating to aircraft engineering; information, advice and consultancy relating to the design and development of aircraft, prototype aircraft, training aircraft, fast jet training aircraft, military aircraft, combat aircraft and aircraft for aerial and acrobatic display purposes; information, advice and consultancy relating to the design and development of components, parts and fittings for aircraft, prototype aircraft, training aircraft, fast jet training aircraft, military aircraft, combat aircraft and aircraft for aerial and acrobatic display purposes; information, advice and consultancy relating to the design, development and testing of electronic displays, sensors, avionics, flight instruments, flight controls, electronics, electronic systems, weapons and weapons systems, cock-pit control panels, cock-pit control modules, head-up displays, helmet-mounted displays, night vision instruments, throttles, control sticks, radar systems, navigation systems, life support systems , communications systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems and removal role equipment, all being for aircraft; information, advice and consultancy relating to the design and development of apparatus and instruments for capturing, recording, processing, communicating, reproducing and transmitting data, sound and images, for use in relation to aircraft and the operation of aircraft; information, advice and consultancy relating to the design and development of flight data recorders, data storage devices, data retrieval devices, data transmission devices and pre-recorded digital media for aircraft; information, advice and consultancy relating to aircraft testing and aircraft certification services; information, advice and consultancy relating to the design, development and testing of aircraft ground support and test equipment; information, advice and consultancy relating to the design, development and operation of support systems for aircraft, namely, systems for monitoring and advising on aircraft availability, for conducting logistic support analysis, and for generating maintenance policies and definition documentation; information, advice and consultancy relating to the generation of reports; information, advice and consultancy relating to the design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of aircraft simulators, of computer software for aircraft simulators, and of computer software for aircraft; information, advice and consultancy relating to the preparation of maps in digital form and not including any of the aforesaid services being for helicopters; information, advice and consultancy relating to the provision of training, education, workshops, seminars and courses in relation to the use, operation, deployment and maintenance of aircraft, and of airborne systems and ground-based systems for aircraft; information, advice and consultancy relating to the provision of training, education, workshops, seminars and courses in relation to the use and operation of computer software, computer hardware, sensors, avionics, electronics, communications equipment, navigation systems, radar systems, information systems, life support systems, weapons systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems,

oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems, removal role equipment and ground handling equipment, all being for aircraft; information, advice and consultancy relating to the provision of computer-based training in relation to aircraft; information, advice and consultancy relating to the provision of in-flight and ground-based training for pilots, navigators, air crew and ground crew; information, advice and consultancy relating to the provision of mission planning training; information, advice and consultancy relating to the provision of training for instructors and flight instructors; information, advice and consultancy relating to the publication of training materials, training manuals, instruction manuals, user guides, technical manuals and maps, all relating to or being for aircraft; information, advice and consultancy relating to the publication of training materials, training manuals, instruction manuals, user guides and technical manuals for avionics, electronics, communications equipment, navigation systems, radar systems, information systems, life support systems and weapons systems, all being for aircraft; information, advice and consultancy relating to the publication of training materials, training manuals, instruction manuals, user guides, technical manuals and maps, all relating to or being for the purposes of providing aircraft-related training; information, advice and consultancy relating to the production of printed and electronic training materials, namely, audio and video recordings, all relating to aircraft, avionics, electronics, communications equipment, navigation systems, radar systems, information systems, weapons systems, life support systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems and removal role equipment systems for aircraft; information, advice and consultancy relating to the provision of simulator training in relation to aircraft; information, advice and consultancy relating to the organising, arranging and conducting of conferences and exhibitions relating to aircraft and aircraft-related training; information, advice and consultancy relating to the production of aircraft mission simulations; information, advice and consultancy relating to the provision of simulator training in relation to aircraft; information, advice and consultancy relating to the production of aircraft mission simulations and not including any of the aforesaid services being for helicopters; information, advice and consultancy relating to the construction, testing, servicing, maintenance, repair, re-fitting, refurbishment, renovation and upgrading of aircraft and of parts, fittings and support systems for aircraft (excluding computer software); information, advice and consultancy relating to the design, development, installation, integration, testing, maintenance, repair and upgrading of computer hardware, electronic displays, sensors, avionics, flight instruments, flight controls, electronics, electronic systems (excluding computer software), weapons and weapons systems (excluding computer software), cockpit control panels, cockpit control modules, head-up displays, helmet-mounted displays, night vision instruments, throttles and control sticks, all being for aircraft; information, advice and consultancy relating to the design, development, installation, integration, testing, maintenance, repair and upgrading of aircraft simulators (excluding computer software) and of computer hardware for aircraft simulators; information, advice and consultancy relating to contracting for availability services, namely maintenance, servicing and preparatory services for aircraft so that the aircraft are always available, fit and ready for use and not including any such information, advice and consultancy relating to helicopters.

GOODS

(1) Parts of stationary machines, namely, Aerating pumps for aquaria, Parts of agricultural elevators, Parts of agricultural machines, Air cushion devices for moving loads, Anti-friction bearings for machines, Ball rings for bearings, Machine bearings, Bearings as machine parts, Belt conveyors, Parts of Bending machines, Bitumen making machines, Brake pads other than for vehicles, Capstans for the fishing, Capstans, Carding machines, Built-in Central vacuum cleaning installations, Centrifugal pumps, Chaff cutters, Parts of Clipper machines, Clutches other than for land vehicles, Compressors for machines, Parts of Concrete mixers, Condensing installations, Connecting rods for machines, motors and engines, Control mechanisms for machines, engines or motors, Parts of Conveyor machines, Couplings other than for land vehicles, Parts of cranes, Crank shafts, Crankcases for machines, motors and engines, Parts of Crushing machines, Parts of Cutting machines, Cylinder heads for engines, Cylinders for machines, Cylinders for motors and engines, Parts of Derricks, Parts of Dividing machines, Electric Door openers, Dragger as parts of machines, Drilling bits as parts of machines, Drilling heads as parts of machines, Parts of Drilling machines, Parts of floating or non-floating Drilling rigs, Driving motors other than for land vehicles, Parts of Dust removing installations for cleaning purposes, namely, electrostatic precipitator, bag dust collector, wet dust collector, Parts of earth moving machines, Parts of Elevating apparatus, namely hoists, cranes, Parts of Elevator lifts, Parts of Embossing machines, Engines for air cushion vehicles, Engines for boats, Parts of Excavators, Exhaust manifold for engines, Parts of Extractors for mines, Parts of Foundry machines, Freewheels other than for land vehicles, Parts of Galvanizing machines, Gear boxes other than for land vehicles, Gears, namely drive gears, transmission gears for industrial machinery, elevator gears, Grease boxes as parts of machines, Parts of power operated Hand-held tools, namely power drills, heat guns, sanders, electric saws,

Harrows, Heat exchangers as parts of machines, Parts of High pressure washers, Hoppers for mechanical discharging, Hydraulic controls for machines, motors and engines, Hydraulic door openers and closers as parts of machines, hydraulic engines and motors, Parts of hydraulic turbines, Igniting devices for internal combustion engines, Injectors for engines, Jacks, Joints as parts of engines, Parts of Kneading machines, Parts of lift operating apparatus, Parts of lifting apparatus, Parts of lifts other than ski-lifts, Lubricating pumps, Lubrication rings as machine parts, Lubricators as parts of machines, Machine coupling and transmission components except for land vehicles, Parts of Machine tools for the metalworking industry, namely, metalworking machine tools , cutting machines, milling machines, turning machines, drilling machines and lathes, Machine wheels, Parts of Machines and machine tools, namely, autogenous soldering machines, continuous metal casting machines, drilling machines for metalworking, tool grinding machines, Parts of Machines for processing plastics, Parts of Mechanized livestock feeders, Parts of Metal drawing machines, Parts of Milling machines, Parts of Mine borers, Parts of Mineworking machines, Motors and engines except for land vehicles, namely motors and engines used in industrial applications, Mufflers for motors and engines, Parts of Oil refining machines, Parts of Peeling machines, Piston rings, Pistons, Pistons for cylinders, Pistons for engines, Pneumatic controls for machines, motors and engines, Pneumatic door openers and closers as parts of machines, Pneumatic hammers, Pneumatic tube conveyors, Power hammers, Part of Presses as machines for industrial purposes, Parts of Presses namely, printing presses, oil hydraulic presses for metal working, Pressure reducers as parts of machines, Pressure regulators as parts of machines, Pressure valves as parts of machines, Printing cylinders, Parts of Printing machines for use on sheet metal, Parts of Printing machines, Propulsion mechanisms other than for land vehicles, Pulleys, Pump diaphragms, Parts of Pumps, Pumps as parts of machines, engines or motors, Radiators for vehicles, Parts of Rail-laying machines, Parts of Railroad constructing machines, Hydraulic rams, Reduction gears other than for land vehicles, Parts of Reeling apparatus namely, a freestanding reel for storing and deploying lines, pulley system consisting of pulleys being parts of machines, Mechanical Reels for flexible hoses, Regulators as parts of machines, Roller bearings for machines, Rolling mill cylinders , Rolling mills, Parts of Portable Rotary steam presses for fabrics, Self-oiling bearings, Self-regulating fuel pumps, Parts of Shaft coupling machines, Shock absorber pistons as parts of machines, Mechanical Shovels, Parts of Shredder machines for industrial use, Parts of Sieves, Sieves as parts of machines, Speed governors for machines, engines and motors, Parts of Spin driers, not heated, Hardware springs, Starters for motors and engines, Parts of Steam engine boilers, Parts of Sugar making machines, Taps as parts of machines, engines or motors, Parts of Tedding machines, Parts of Threading machines, Parts of Threshing machines, Tilt hammers, Tools being parts of machines, namely grinding tools, polishing tools, machine tools for drilling, extracting, producing, handling, processing, warehousing, and isotopically separating and storing ores, metals, Torque converters other than for land vehicles, Transmission shafts, other than for land vehicles, Transmissions for stationary machines, Parts of Trash compacting machines, Gas turbine engines not for land vehicles, Turbocompressors, Universal joints, Cardan joints, Parts of Uprooter machines, Valves as parts of machines, Parts of Vehicle washing installations, Parts of Vibrator machines for industrial use, Parts of Vulcanisation apparatus, Parts of Wind turbines, Winnowers, Parts of Wrapping machines; parts of mobile machines, namely, Aerial conveyors, parts of Aeronautical apparatus, machines and appliances, namely, fuselage, wings, propellers, landing gear, brakes, doors, Aeronautical engines, Aeroplane engines, Parts of Aeroplanes, Parts of Air vehicles, Parts of agricultural implements other than hand-operated namely, thresh bars, thresher flights, thresher flight transition plates, thresher flight transition plate kits comprised of thresher flight transition plates, backing plates, and mounting hardware sold as a unit, harrows, seed planters, seed drills, fertilizer applicators, and parts therefore, balers, cultivators, equipment for seeding, irrigation equipment, land fertilizing equipment, plows and tractors, Parts of Airships, Parts of Amphibious airplanes, Parts of Apparatus and vehicles for locomotion by land, air or water, namely, automobiles, off-road all terrain motor vehicles, trucks, motor vehicles for the transport of passengers and goods, motor lorries, vans, buses, motorboats, airplanes, helicopters, seaplanes, Axles for vehicles, Bands for wheel hubs, Bearings for transmission shafts, Bogies for railway cars, Brake discs for vehicles, Parts of bulldozers, Carriages for railways, Parts of Chain saws, Parts of Chairlifts, Clutches for land vehicles, Parts of concrete mixing vehicles, Connecting rods for land vehicles, other than parts of motors and engines, Couplings for land vehicles, Crankcases for land vehicle components, other than for engines, Parts of Cultivators, Davits for boats, Disengaging gear for boats, Parts of dredgers for boats, Driving motors for land vehicles, Parts of ferry boats, Parts of fork lift trucks, Freewheels for land vehicles, Gear boxes for land vehicles, Gearing for land vehicles, Parts of golf carts, Parts of hand cars, Parts of hose carts, Hub caps, Hydraulic circuits for vehicles, Jet engines for land vehicles, Kick sledges, Launches, Parts of lawnmowers, Parts of locomotives, Masts for boats, Parts of motorized cultivators, Motors for land vehicles, Motors for motor vehicles, Motors for boats, Parts of Ploughs, Ploughshares, Propulsion mechanisms for land vehicles, Reduction gears for land vehicles, Parts of refrigerated wagons for railroad vehicles, Parts of road making machines, Parts of road rollers, Parts of self-propelled road sweeping machines, Rolling stock for funicular railways, Screw-propellers for boats, Screw-propellers, Screw propellers for ships, Ships' steering gears, Parts of Ski lifts, Parts of snowmobiles, Parts of snow ploughs, Parts of space vehicles, Parts of tilt trucks, Tipping apparatus, namely, tipping machinery found in trucks and wagons, Tipping bodies for trucks, Torque converters for land vehicles, Traction engines , Parts of tractors, Parts of tramcars, Transmission shafts for land vehicles, Transmissions for mobile machines, Transmissions, for land vehicles, Parts of trucks, Turbines for land vehicles, Undercarriages for vehicles, Vehicle wheel hubs, Vehicle wheels, Parts of wagons, Parts of Water vehicles, Wheels for land vehicles.

(2) Machines and machine tools, namely, milling machines, forging machines, asphalt paving machines, earth compacting machines, routing machines, machine tools for the automotive industry, machine tools for the textile industry, machine tools for the metalworking industry; Motors and engines other than for land vehicles, namely, engine motors, internal combustion engines for boats, trains, airplanes and industrial machinery; Machine coupling and transmission components except for land vehicles; Agricultural implements other than hand-operated namely, thresh bars, thresher flights, thresher flight transition plates, thresher flight transition plate kits comprised of thresher flight transition plates, backing plates, and mounting hardware sold as a unit, harrows, seed planters, seed drills, fertilizer applicators, and parts therefore, balers, cultivators, equipment for seeding, irrigation equipment, land fertilizing equipment, plows and tractors; Incubators for eggs; Automatic vending machines; Apparatus for locomotion by land, air or water namely, automobiles, off-road all terrain motor vehicles, trucks, motor vehicles for the transport of passengers and goods, motor lorries, vans, buses, motorboats, airplanes, helicopters, seaplanes.

CLAIMS

Used in CANADA since at least as early as 1973 on goods (1). Priority Filing Date: OHIM (EU) August 31, 2012, Application No: 011155876 in association with the same kind of goods (1). Used in ITALY on goods (2). Registered in or for OHIM (EU) on May 15, 2013 under No. 011155876 on goods (2)

GOODS

Scientific, nautical, geodesic, photographic, cinematographic, optical, weighing, measuring, signalling, control, inspection, life-saving, rescue, and teaching apparatus and instruments, namely calculators, microprocessors, analog computers, digital computers, optical computers, hybrid computers, radars, signal beacons, radar replies, satellites, altimeters, radiometers, planimeters, and orthoimage samplers, databases for flight simulators, geodesic instruments, tachymeters, goniometers, graphometers, range poles, sights, tachographs, theodolites, and monitoring screens, high- and very high-resolution optical satellites, digital cameras, computer software and microcomputer software for demonstration, education, and training in the field of manipulating and interpreting digital imagery, namely satellite images; apparatus and instruments for the conduct, distribution, processing, accumulation, regulation, and control of electric current, namely all-purpose batteries, stationary batteries, batteries for electric vehicles, boxes, terminals, circuit breakers, current inverters and converters, remote control switches, breakers, lightning arresters, fuses, fuse cartridges, distribution panels, electric resistors; apparatus for the recording, transmission, reproduction of sound and images, and data communication instruments, namely satellites, computers, computer monitors, modems, video tape recorders, DVD players, optoelectronic apparatus used for restoring images in the fields of satellites and optical telecommunications that, through digital information, reproduce analog information that can be assimilated directly by the human eye; magnetic data carriers and magnetic recording media, namely blank audio discs and tapes, blank video tapes, blank compact discs, pre-recorded and blank recording discs, pre-recorded audio discs, pre-recorded audio and video tapes, and pre-recorded compact discs, containing software for communication on wireless networks, namely communications software for connecting to global networks, namely computer software for operating network access servers, search engine software for performing searches on the Internet, computer software for the acquisition, analysis, and processing of text data from radars, signal beacons, and radio receivers and related to aeronautical and space equipment, namely aircraft and satellites; automatic vending machines and mechanisms for coin-operated apparatus; data processing equipment, namely mobile telephones, computer keyboards, computer monitors, printers, modems, , and computers; computer hardware and data processing equipment, namely telecommunications hardware and data processing hardware; computer hardware components, namely computer operating programs, computer utility programs for the provision of diagnostic information about devices installed on a computer system, computer operating systems; telecommunications apparatus for connecting to computer databases and to the Internet, namely modems; computer software and software for the collection, editing, organization, modification, transmission, storage, and sharing of data, namely computer software for cloud computing; database management software; operating system software; computer software for the creation of searchable databases; computer software for application and database integration; downloadable electronic publications, namely books, pamphlets, and technical sheets available in databases and on the Internet; telecommunications software for connecting to computer databases, computer networks, global computer networks, and the Internet, namely software for operating a network access server, telecommunications apparatus, namely modems; data processing equipment, namely couplers; computer software for computer data processing, namely word and image processing software; data encryption and decryption software; electronic units for encryption and decryption; central processing units, namely processors, namely signal processors, digital signal processors, satellite signal processors, video processors; data processing apparatus, namely data processing hardware, computers; data processing systems, namely word processors; electric instruments and machines for communications, namely instrument panels, namely panels containing cathodic screens and dials for primary main on-board equipment, placed in front of airplane pilots; computer software for communicating on wireless networks, namely communications software for connecting to global networks, namely software for operating network access servers, search engine software for performing searches on the Internet, computer software for the acquisition, analysis, and processing of data from radars, signal beacons, and radio receivers and related to aeronautic and space equipment, namely aircraft and satellites; computer servers; computer hardware, namely communications servers, namely network servers, Internet and intranet servers; computer terminals; radio transmitters and receivers; high-frequency apparatus, namely radars; telecommunications apparatus, namely portable telephones, telephones ; communications hardware, namely routers and transmitters for location systems; computer hardware and software for remote secure access to computer and communication networks, namely computer programs for exploring the content of computers and computer networks by remote control; telecommunications cables, namely fibre optic cables, coaxial cables, audio/video cables, computer cables, telephone cables, USB cables; electric cables; sensors for telecommunications apparatus, namely optical sensors for radars and signal beacons; modems; flight simulation software for aircraft; flight simulators for aircraft; simulators for the piloting and control of vehicles; training simulators for the driving of vehicles; signal transmission apparatus, namely digital signal processors, satellite signal processors; radio transmission and reception apparatus, namely radio transceiver apparatus; transponders; vehicle navigation apparatus in the form of on-board computers; instruments and apparatus for navigation, tracking, and positioning and apparatus for satellite navigation, namely global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface units, radars and signal beacons; avionic instruments, namely attitude indicators, anemometers, altimeters, variometers, compasses, global positioning systems (GPS) consisting of computers, transmitters, receivers, and network interface units, and software for pilots to visualize information (in airplanes) related to digital airport cartography, navigation networks, navigational charts, weather in real time; satellites for scientific use; satellites for the reception and transmission of radio signals; sunglasses; satellites for scientific and commercial purposes; all the aforesaid apparatus being destined for the aviation sector; vehicles, namely all-terrain vehicles, tractors for airplanes, light-duty trucks, sport utility vehicles, apparatus for transport and locomotion by land, air, water, and rail, namely streetcars, trains, ships, buses, automobiles, airplanes; aircraft; spacecraft, launch vehicles, namely spacecraft, namely launch platforms; balloons, namely airplanes, namely dirigible balloons; airplane components, namely indicators of speed, altitude, indicators of engine parameters, meteorological radars; aeronautic apparatus, namely remote control airplanes, propeller screws for airplanes; military transport vehicles, namely aircraft; slip covers for vehicle seats, connecting parts and components, namely fittings for all of the aforesaid products, namely for aircraft; aeronautic machines, namely flight simulators for aircraft; sun visors for vehicles.

SERVICES

Systematization of data in computer databases; systematization of data in a central file; updating and maintenance of data in computer databases; compilation of data in computer databases; interfiling of data in computer databases; compilation of information in computer databases, namely computer database management and compilation; business management consulting and professional business consulting, namely consulting and information related to business management; advertising, namely advertising services for the goods and services of others; business management; business administration; office functions; organizational consulting in the field of aeronautics, namely business organization consulting services; market research; marketing of airplanes and airplane parts, namely marketing services consisting of market assessments for the goods and services of others; organization of exhibitions and shows for commercial and advertising purposes for the goods and services of others in the field of aviation; business management for airports, namely airport management; human resources administration; organization of events for advertising and promotional purposes, namely organization of exhibitions and shows for the goods and services of others in the field of aviation; promotion of the goods and services of others through advertising sponsorship agreements; telecommunications, namely email services, text messaging services, bundled telecommunications services for the usage of cellular telephones, voice mail, and call routing between wired and wireless services; transmission of computerized data, namely dissemination, through a computer database, of information in the field of air navigation; transmission of digital files, namely email services; rental of telecommunications apparatus, namely rental of computers, rental of portable telephones, rental of modems; provision of information related to telecommunications, namely dissemination of information related to email services and text messaging services through a computer database; telecommunications equipment operation services, namely computerized and centralized file management; rental of access time to computer networks; rental of access time to telecommunications networks, namely rental of access time to global computer networks; provision of access to databases, namely provision of access to an electronic database containing information in the field of navigation; rental of access time to databases, namely rental of access time to a computerized database in the field of navigation; paging services, mobile telephony services, and other electronic communication services, namely radio or telephone messaging services, wireless digital messaging services; communication services provided through fibre optic networks, namely telephone services provided through fibre optic cables; telecommunications services and satellite transmission services, namely transmission of radio and television programs via satellite, telephone services provided via satellite; communication services via computer terminals, namely email services; provision of telecommunications connections to a global computer network, namely provision of Internet access ; telephone communication services, namely local and long-distance telephony services; radio terminal communication services, namely radio broadcasting, Internet radio broadcasting, and television broadcasting services; transmission of news and information related to local and international current events via television, the radio, the Internet by means of satellites; rental of apparatus for image transmission, namely rental of computers, digital cameras, smart telephones; rental of modems; education and training, namely organization and holding of conventions and symposia in the field of aviation; entertainment and organization of air shows, firework shows, car races; sporting and cultural activities, namely organization of soccer games, football games, basketball games, musical group performances; training in the field of aeronautics; organization of air shows for educational and entertainment purposes; film production; air pilot training; training, namely organization and conduct of workshops and practical training in the field of security, namely air passenger security control, security control for people and luggage at airports, and security inspection of luggage for airlines; testing of flight simulators; scientific and technological services as well as related research and design services performed by engineers, namely mechanical engineering in the field of aviation; industrial research and analysis services performed by engineers in the field of aviation; design and development of computers and computer software; data processing program design and development services; research services in the field of data processing technology, rendered by engineers; research services in the field of the communication of text data and images through email, rendered by engineers; electronic data backup services and electronic data storage services, namely cloud computing providing database management software, cloud computing providing web hosting of video content, cloud computing providing photograph sharing; development of data transmission systems, namely design and development of radars, signal beacons; identification, encryption, authentication, authorization, computer access, and digital certificate services, namely network server firewall development services; rental of computer hardware and software; provision of online information related to the design, development, and maintenance of computer hardware and computer software; provision of technical information related to computers, computer software, and computer networks; technical support services related to computer software; installation, maintenance, and updating of computer software; administration of user rights on computer networks; design and development of telecommunications equipment and apparatus, namely computers, telephones, smart telephones; analysis and monitoring of telecommunications signals, namely computer system monitoring services; scientific, technological, research, and design services related to telecommunications signals, namely engineering work in the field of the installation, repair, and maintenance of hub stations for cellular telephony and telecommunications base stations; design of databases; hosting of databases; design, development, installation, and maintenance of database software; design and development of computer databases; rental of database management software; rental of computer database software; scientific research conducted with the help of databases and the Internet, namely business management services concerning the compilation and analysis of information and of data; consulting services related to computer database programs; computer system installation tests; environmental protection, namely research related to environmental protection; research and consulting in the field of environmental protection; energy technology, namely scientific research in the fields of energy and energy engineering; industrial designer services, namely industrial design; interior designer services; graphic designer services in the field of aviation; testing and engineering services for vehicle quality standard certification; technical flight tests, namely aircraft flight simulators; aeronautic research; writing and development of computer-synthesized images in the field of aviation; technical consulting, evaluation, research, testing, and monitoring services in the field of technology, in particular transportation, namely air transportation, provided by engineers; technological services related to flight simulation, namely cabling engineering expertise for the development of flight simulators; drafting of technical project studies, technical studies and consulting in the field of aviation; legal services, namely licencing of computer software; database licencing; patent licencing; intellectual property licencing; advisory services, namely consulting in the field of civil security and airspace matters; operation of industrial and intellectual property rights; inspection of airports and flights, namely of aircraft, for safety purposes; consulting related to airport security; vehicle safety services, namely for aircraft.
